Mounting foot single, 30 mm

description

The holder tubes in various lengths and shapes, together with the mounting base, enable diverse mounting options for the TILTED DIAMOND+ variants. The mounting tubes are also used for the KIS.LIGHT and the TILTED DIAMOND+ IO-LINK. This allows the signal lights to be mounted easily and clearly even in remote or out-of-the-way locations.

The mounting tubes are connected to the mounting base by a threaded pin. The material is black coated steel. The holder tubes and the mounting base have environmental resistance, which is certified according to IEC 60068-2.
