

RAFIX 22 FS⁺, illuminated selector switch, round collar, frontring slate gray, 1 x 90°, shape V, latching, illuminable

fields of application

› Measurement-control-regulation

› Electrical engineering

› Mechanical and system engineering

› Vehicle construction

› Handheld terminals

› Industrial robots

special features

› Illumination of the rotary handle marking with SMT LED

› Colored illumination with colored LEDs possible

› Low installation depth 9.2 mm (PCB) or 27 mm (QC)

› Connection types: printed circuit board connection (PCB) or plug-in connection (QC)

› PCB switching elements minimize mounting errors

› Switching elements with silver contacts (max. 250 V/4 A) or gold contacts (max. 35 V/100 mA)

› Design adaptation through different front ring variations

› Degree of protection: IP 65 at the front

› Two collar shapes: round and square

description

RAFIX control devices are defined at RAFI as modular elements, consisting of an actuating element, if necessary a coupling and an individual contact or lighting unit.

Actuating elements (such as pushbuttons, emergency stop actuators, etc.) have the intended tactility, reset and function only when assembled with the appropriate switching elements.

The translucent handle marking can be illuminated if combined with a corresponding switching element.

For colored illumination of the handle marking, please use colored LEDs.
