

# Product Change Notification PCN

PCN-2026-004

Publication date: May 8, 2026

Dear customer,

the extreme fluctuations in the price of gold since September 2025 are forcing us to take immediate action so that we can continue to offer you our tactile switches at reasonable prices. The price of gold has risen by more than 50% since September, and given current political events, we do not expect this trend to stabilize in the short term.

Since gold is a key component of our MICON snap domes and contact tracks, the current increases in the price of gold are having a significant impact on our cost structure.

We are exploring various options to reduce gold usage in our MICON 5, MICON 5 S and MICON 5 SL - with the clear goal of continuing to ensure their technical quality and performance without compromise. At MICON, we will switch the gold plating process to spot plating, so that the gold is applied only to the contact area that is functionally relevant. You will receive the first series deliveries of individual variants starting in November 2026.

The change has no impact on the technical specifications and therefore does not alter the product's "form, fit, and function." The transition will be carried out without changing the RAFI part number.

Quality assurance for the technical change and subsequent series approval will be conducted using reference part numbers.

The change affects the following part numbers:

Article number	Description	Category of change	Description of change	Launch date
1.14.002.xxx/0000 9.14.002.xxx/0000	MICON 5 tactile switch	<input type="checkbox"/> dimensional <input type="checkbox"/> appearance <input type="checkbox"/> materials <input type="checkbox"/> functional <input checked="" type="checkbox"/> other	change to spot plating for the snap dome and contact track	starting in November 2026
1.14.005.xxx/0000 9.14.005.xxx/0000	MICON 5 S tactile switch	<input type="checkbox"/> dimensional <input type="checkbox"/> appearance <input type="checkbox"/> materials <input type="checkbox"/> functional <input checked="" type="checkbox"/> other	change to spot plating for the snap dome and contact track	starting in November 2026

The information in this sheet only contains general descriptions and / or performance features, which may not apply precisely as described to the respective application, and which may change due to further product enhancements. The technical data, illustrations and other information about our products are the mere results of individual technical testing. These descriptions and other product features are only binding if they expressly agreed upon at the time of the conclusion of a binding contract. In all other cases, we reserve the right to make technical changes as well as changes of availability. Pictures and other graphic illustrations are approximations only. All product names may be trademarks or brand names of the RAFI Group or any other sub-supplier of RAFI. The use of such by any third parties for their own purposes may infringe the rights of the respective entity holding those rights. Subject to change and errors excepted. Details about delivery times and availability are noncommittal and have no legal force.
