Publication date: March 18, 2022

Due to a technical product optimization, we are forced to design the injection point of the RAFIX 22 FS+ emergency stop compact on the upper side in the future. The marginal optical change is shown in the following image comparison and will be incorporated in the course of the next few weeks:

In case of questions or demands do not hesitate to contact the known RAFI contact person.

Please forward this important information also to other responsible departments in your company.

We thank you for the trust you have placed in us and our products and look forward to further cooperation with you.

Best regards,

Product Management
