

Topic: RAFIX 22 FS⁺ frontring metallic silver

Dear customer,

all front rings of our RAFIX 22 FS⁺ series in the color silver metallic are changed due to the change of the manufacturing process:

Article number	Description	Category of change	Description of change	Launch date
various articles (see enclosed overview)	RAFIX 22 FS ⁺ actuator with plastic front ring silver metallic	<input type="checkbox"/> dimensional <input checked="" type="checkbox"/> appearance <input checked="" type="checkbox"/> materials <input type="checkbox"/> functional <input type="checkbox"/> other	Visual change to the plastic front rings silver metallic. Reduction in media resistance for hydrochloric acid and sodium hydroxide from (++) to (+).	From June 2025

This change leads to an improvement in the quality of the silver metallic front rings. The change results in a minimal visual change:

Title: Comparison of visual change to the front ring silver metallic OLD (left) // NEW (right)

In addition, there are changes with regard to media resistance with hydrochloric acid and sodium hydroxide. In both cases, the resistance is reduced from (++) to (+). The updated overview is available in the eCatalog under the "Downloads" tab.

The information in this sheet only contains general descriptions and / or performance features, which may not apply precisely as described to the respective application, and which may change due to further product enhancements. The technical data, illustrations and other information about our products are the mere results of individual technical testing. These descriptions and other product features are only binding if they expressly agreed upon at the time of the conclusion of a binding contract. In all other cases, we reserve the right to make technical changes as well as changes of availability. Pictures and other graphic illustrations are approximations only. All product names may be trademarks or brand names of the RAFI Group or any other sub-supplier of RAFI. The use of such by any third parties for their own purposes may infringe the rights of the respective entity holding those rights. Subject to change and errors excepted. Details about delivery times and availability are noncommittal and have no legal force.

Product Change Notification PCN

PCN-2025-001

Publication date: May 21, 2025

Chemicals	Resistance
Acetone	(+)
Biodiesel	(+)
Brake fluid DOT4	(++)
Diesel	(+)
H ₂ O ₂ 10%	(++)
Honing oil Castrol 981	(++)
Isopropyl alcohol	(++)
Cold cleaner	(+)

Super gasoline ROZ 95	(+)

Explanation of signs

- ++ Resistant
- + Application-specific testing is recommended
- Not Resistant

Test conditions
Room temperature; storage period 120h; tested from the front side; testing acc. DIN ISO 16750-5

Important notice
Due to the diversity of the media, it is generally recommended to test always application-specific.

* For variants with metallic silver front ring only (+)
